PROFESSIONAL SUMMARY

Associate Software Developer dedicated to building innovative digital solutions using a professional stack of Python, Django, and React. I am a frequent practitioner of Next.js and TypeScript, utilizing Tailwind CSS to deliver polished, production-ready personal projects. I offer a unique blend of experience in maintaining complex enterprise systems and developing modern, full-stack applications from the ground up.

WORK EXPERIENCE

Associate Software Developer

Jan 2025 - Present

Halcyon Health Network Inc. · Ground and 3rd Floors, Maria Cornelia Building, 222 Sen. Gil J. Puyat Ave, Makati City, 1230 Metro Manila

- **Full-Stack Development:** Architect and maintain scalable backend services using Python (Django) and Java Spring Boot with PostgreSQL, while engineering high-performance frontends utilizing React and Vite.
- **Legacy & Systems Engineering:** Modernize and sustain mission-critical Python 2.7 legacy applications, ensuring continued stability and security for healthcare information systems.
- **Infrastructure & Deployment:** Streamline application delivery by containerizing services with Docker and managing server configurations via Nginx reverse proxies to optimize performance and uptime.

EDUCATION

Bachelor of Science in Information Technology

Jul 2024

Bulacan State University · Hagonoy, Bulacan, Philippines

GPA: 1.30

SKILLS

Technical: TypeScript, JavaScript, Java, Python (2.7 & 3.x), Next.js, React, Vite, Tailwind CSS, Bootstrap CSS, Django, Spring Boot, PostgreSQL, Docker, Nginx

Soft Skills: Collaborative Problem Solving, Adaptability & Continuous Learning, Technical Communication, Analytical Thinking, Time Management & Ownership, Attention to Detail

Languages: English (Fluent), Filipino (Native)

CERTIFICATIONS

Responsive Web Design · freeCodeCamp

Sep 2024

PROJECTS

Vido (Movie Discovery) | React, TMDB API, Appwrite, GitHub Pages

<https://edsiron.github.io/movie-app/>

- Built a responsive media platform integrating the TMDB API for real-time movie data and Appwrite for backend services, featuring high-quality trailers and series descriptions

In-Between (Multiplayer Game) | Next.js, Socket.io, TypeScript, Tailwind CSS, Render

<https://in-between.onrender.com>

- Engineered a real-time multiplayer card game utilizing Socket.io for low-latency synchronization and TypeScript for robust game-state logic.

ProfilPro (Resume Builder) | Next.js, TypeScript, Tailwind CSS, Vercel

<https://profilpro.vercel.app/>

- Developed an ATS-focused resume builder featuring dynamic form handling and a modern, responsive UI designed for clean professional formatting.
